

## Data Validation

### **Validation of coding algorithms for the identification of patients with primary biliary cirrhosis using administrative data**

Myers RP, Kaplan, GG, Quan H.  
*Canadian Journal of Gastroenterology (In press)*

### **Chronic disease case ascertainment from administrative data: Agreement with survey data**

Lix, L. M., Yogendran, M. S., Shaw, S. Y., Burchill, C., Metge, C., & Bond, R. (in press)  
*Chronic Diseases in Canada*

### **Validation of a case definition to define hypertension using administrative data**

Quan H, Khan N, Hemmelgarn BR, Tu K, Chen G, Campbell N, Hill MD, Ghali WA, McAlister FA for the Hypertension Outcome and Surveillance Team of CHEP  
*Hypertension 2009 Dec 54;1423-1428*

### **How accurate is ICD coding for epilepsy? Using administrative databases for research in epilepsy: Validation of ICD-9/10 epilepsy codes**

Jetté N, Reid AY, Quan H, Hill MD, Wiebe S.  
*Epilepsia 2009 Jul 20*

### **Assessing validity of ICD-9-CM and ICD-10 administrative data in recording clinical conditions in a unique dually coded database**

Quan H, Li B, Saunders LD, Parsons GA, Nilsson CI, Alibhai A, Ghali WA; IMECCHI Investigators  
*Health Services Research 2008 Aug 43(4):1424-1444*

### **Is it possible to estimate the incidence of breast cancer from medico-administrative databases?**

Remontet L, Mitton N, Couris CM, Iwaz J, Gomez F, Olive F, Polazzi S, Schott AM, Trombert B, Bossard N, Colonna M. Eur  
*J Epidemiol. 2008;23(10):681-8. Epub 2008 Aug 21*

### **Comparison and validity of procedures coded with ICD-9-CM and ICD-10-CA/CCI.**

De Coster C, Li B, Quan H.  
*Medical Care 2008 Jun;46: 627-634*

### **Feasibility of determining myocardial infarction type from medical record review**

Woo KS, Ghali WA, Southern DA, TU JV, Parsons G, Graham MM  
*Can J Cardiol; 24:115-117, 2008*

## Data Validation

### **Comparing clinical and administrative data for profiling hospitals on post-discharge medication use by AMI patients**

Austin PC, Donovan LR, Yun L, TU JV  
*Am Heart J*:156:595-605, 2008

### **Do administrative databases accurately measure waiting times for medical care? Evidence from general surgery**

De Coster C, Luis A, Taylor M.  
*Can J Surg*. 2007 October; 50(5): 394–396

### **Quality of diagnosis and procedure coding in ICD-10 administrative data**

Henderson T., Shephard J., and Sundararajan V.  
*Med Care*, 2006. 44;11: p. 1011-9

### **Can the quality of care in family practice be measured using administrative data?**

Katz A, Soodeen R, Bogdanovic B, De Coster C, Chateau D.  
*Health Services Research* 2006. Dec;41(6):2238-54

### **Accuracy of obstetric diagnoses and procedures in hospital discharge data**

Yasmeen S, Romano PS, Schembri ME, Keyzer JM, Gilbert WM.  
*American Journal of Obstetrics and Gynecology*; 2006; 194(4):992-1001

### **Comparing clinical data with administrative data for producing acute myocardial infarction report cards**

Austin PC, TU JV.  
*Journal of the Royal Statistical Society - Series A (Statistics in Society)* 169 (Part 1):115-126, 2006

### **Validation of the Potentially Avoidable Hospital Readmission Rate as a Routine Indicator of the Quality of Hospital Care**

Halfon P, Egli Y, Prêtre Rohrbach I, Meylan D, Marazzi A, Burnand B.  
*Med Care* 2006;44:972-81

### **Validity of ICD-9-CM administrative data for determining eligibility for pneumococcal vaccination triggers**

Coffin CS, Saunders C, Thomas CM, Loewen AH, Ghali WA, Campbell NR.  
*American Journal for Medical Quality*. 2005;20(3):158-63

### **Data Quality in an Information-Rich Environment: Canada as an Example**

Roos LL, Gupta S, Soodeen RA, Jebamani L  
*Can J Aging, Special Suppl.*, 2005; 24(1):153-170

## Data Validation

### **Validity of procedure codes in International Classification of Diseases, 9th revision, clinical modification administrative data**

Quan H, Parsons GA, Ghali WA.  
*Medical Care* 2004; 42(8):801-809

### **Comparison of coding of heart failure and comorbidities in administrative and clinical data for use in outcomes research**

Lee DS, Donovan L, Austin PC, Gong Y, Liu PP, Rouleau JL, TU JV.  
*Med Care* 43:182-8, 2004

### **Accuracy of city postal code coordinates as a proxy for location of residence**

Bow CJ, Waters NM, Faris PD, Seidel JE, Galbraith PD, Knudtson ML, Ghali WA, for the APPROACH Investigators  
*Int J Health Geogr.* 2004;3(1):5

### **Assessing accuracy of diagnosis type indicators for flagging complication in Canadian administrative data**

Quan H, Parsons GA, Ghali WA.  
*Journal of Clinical Epidemiology* 2004;57:366-372

### **Accuracy of the Australian National Death Index: comparison with adjudicated fatal outcomes among Australian participants in the Long-term Intervention with Pravastatin in Ischaemic Disease (LIPID) study**

Magliano D., Liew D., Pater H., Kirby A., Hunt D., Simes J., Sundararajan V., and Tonkin A.  
*Aust N Z J Public Health*, 2003. 27;6: p. 649-53

### **Validity of information on comorbidity derived from ICD-9-CM administrative data**

Quan H, Parsons GA, Ghali WA.  
*Medical Care* 2002;40:675-685

### **A multicentre study of the coding accuracy of hospital discharge administrative data for cardiac patients in Ontario**

Austin PC, Daly P, TU JV.  
*Am Heart J* 144:290-296, 2002

### **Development and validation of the Ontario acute myocardial infarction mortality prediction rules**

TU JV, Austin PC, Walld R, Roos L, Agras J, McDonald K.  
*J Am Coll Cardiol* 37:992-997, 2001

## Data Validation

### **A Canadian comparison of data sources for coronary artery bypass surgery outcome 'report cards'**

Ghali WA, Rothwell DM, Quan H, Brant R, Tu JV.  
*American Heart Journal* 2000;140:402-8

### **Bias in the coding of hospital discharge data and its implications for quality assessment**

Romano PS, Mark DH.  
*Medical Care*; 1994; 32:81-90

### **A comparison of administrative versus clinical data: Coronary artery bypass surgery as an example**

Romano PS, Roos LL, Luft HS, Jollis JG, Doliszny K, and the Ischemic Heart Disease Patient Outcomes Research Team  
*Journal of Clinical Epidemiology*; 1994; 47:249-60

### **Unspecified injuries on death certificates: A source of bias in injury research**

Romano PS, McLoughlin E.  
*American Journal of Epidemiology*; 1992; 136:863-72
