

Patient Safety and Quality of Care

Effects of resident duty hour reform on surgical and procedural Patient Safety Indicators among hospitalized VA and Medicare patients

Rosen AK, Loveland SA, Romano PS, Itani KMF, Silber JH, Even-Shoshan OO, Halenar MJ, Teng Y, Zhu J, Volpp KG.
Medical Care (in press)

Applying the AHRQ Patient Safety Indicators to ICD10- How might they be used? Australian Health Review (in press)

McConchie S, Shephard J, Waters S, Sundararajan V.

Positive Predictive Value of the AHRQ Accidental Puncture or Laceration Patient Safety Indicator

Garth H. Utter, MD, MSc, Patricia A. Zrelak, PhD, RN, Ruth Baron, RN, Daniel J. Tancredi, PhD, Banafsheh Sadeghi, MD, PhD, Jeffrey J. Geppert, JD, and Patrick S. Romano, MD, MPH
Annals of Surgery, 2009

How Valid is the ICD-9-CM Based AHRQ Patient Safety: Indicator for Postoperative Venous Thromboembolism?

Richard H. White, MD, FACP, Banafsheh Sadeghi, MD, PhD, Daniel J. Tancredi, PhD, Patricia Zrelak, PhD, CN, RN, CNAA-BC, Joanne Cuny, RN, MBA, Pradeep Sama, MBA, Garth H. Utter, MD, MSc, Jeffrey J. Geppert, EdM, JD, and Patrick S. Romano, MD, MPH
Med Care. 2009 Dec;47(12):1237-43

Validity of selected AHRQ Patient Safety Indicators based on VA National Surgical Quality Improvement Program data

Romano PS, Mull HJ, Rivard PE, Zhao S, Henderson WG, Loveland S, Tsilimingras D, Christiansen CL, Rosen AK.
Health Services Research; 2009; 44(1): 182-204

Application of patient safety indicators internationally: A pilot among seven countries

Saskia E. Drösler SE, Klazinga NS, Romano PS, Tancredi DJ, Gogorcena Aoiz MA, Hewitt M, Scobie S, Soop M, Wen E, Quan H, Ghali WA, Mattke S, Kelley E. *International Journal for Quality in Health Care 2009, April Page 1-7, 10*

Facilitating Cross-National Comparisons of Indicators for Patient Safety at the Health-System Level in the OECD Countries

Drösler S.E.
OECD Health Technical Paper 19, 2008

Adaptation of AHRQ patient safety indicators for use in ICD-10 administrative data by an international consortium

Quan H, Drösler S, Sundararajan V, Wen E, Burnand B, Couris CM, Halfon P, Januel JM, Kelley E, Klazinga N, Luthi JC, Moskal L, Pradat E, Romano PS, Shephard J, So L, Sundaresan L, Tournay-Lewis L, Trombert-Paviot B, Webster G, Ghali WA for the IMECCHI Investigators

Advances in Patient Safety: New Directions and Alternative Approaches 2008 Aug

How often are potential patient safety events present on admission?

Houchens RL, Elixhauser A, Romano PS.

Joint Commission Journal Quality and Patient Safety; 2008; 34(3):154-63

A Preliminary Assessment of Pediatric Healthcare Quality and Patient Safety in the U.S. Using Readily Available Administrative Data

McDonald KM, Davies SM, Haberland CA, Geppert JJ, Ku A, Romano PS.

Pediatrics. 2008. 122 (2):e416-25

Determinants of adverse events in hospitals--the potential role of patient safety culture

Kline TJ, Willness C, Ghali WA.

J Healthc Qual. 2008; 30(1):11-7

Using Patient Safety Indicators to estimate the impact of potential adverse events on outcomes

Rivard PE, Luther SL, Christiansen CL, Zhao S, Loveland S, Elixhauser E, Romano PS, Rosen AK.

Medical Care Research and Review; 2008; 65(1):67-87

Nine-year downward trends in surgical site infection rate in southeast France (1995-2003).

Couris CM, Rabilloud M, Ecochard R, Metzger MH, Caillat-Vallet E, Savey A, Fabry J, Vanhems P.

J Hosp Infect. 2007 Oct;67(2):127-34. Epub 2007 Sep 27

Failure-to-Rescue: Comparing definitions to measure quality of care

Silber JH, Romano PS, Rosen AK, Wang Y, Even-Shoshan O, Volpp K.

Medical Care; 2007; 45(10):918-25

Why Rescue the Administrative Data Version of the "Failure to Rescue" Quality Indicator

McDonald KM, Davies SM, Geppert J, Romano PS

Med Care. 2007 Apr;45(4):277-9

**Measures of Pediatric Health Care Quality Based on Hospital Administrative Data.
Agency for Healthcare Research and Quality**

McDonald KM, Romano PS, Davies SM, Haberland C, Geppert J, Ku A, Choudhry K.
February 20, 2006. Available at qualityindicators.ahrq.gov.

**Application of Patient Safety Indicators in Manitoba: A First Look. Winnipeg:
Manitoba Centre for Health Policy**

Bruce S, Prior H, Katz A, Taylor M, Latosinsky S, Martens P, De Coster C, Brownell M,
Soodeen R, Steinbach C.

Winnipeg, MB: Manitoba Centre for Health Policy, 2006

Tracking rates of Patient Safety Indicators over time: Lessons from the VA

Rosen AK, Zhao S, Rivard P, Loveland S, Montez-Rath ME, Elixhauer A, Romano PS.
Medical Care; 2006; 44(9):850-61

Kaplan-Meier methods yielded misleading results in competing risk scenarios

Southern DA, Faris PD, Brant R, Galbraith PD, Norris CM, Knudtson ML, Ghali WA;
APPROACH Investigators

J Clin Epidemiol. 2006 Oct;59(10):1110-4

**External validation of a percutaneous coronary intervention mortality prediction
model in patients with acute coronary syndromes**

Hubacek J, Galbraith PD, Gao M, Humphries K, Graham MM, Knudtson ML, Ghali WA,
for the APPROACH Investigators

Am Heart J 2006;151:308-15

**Evaluating the Patient Safety Indicators (PSIs): How well do they perform on VA
data?**

Rosen AK, Rivard P, Zhao S, Loveland S, Tsilimingras D, Christiansen C, Elixhauser A,
Romano PS.

Medical Care; 2005 43(9):873-84

**Coding of perineal lacerations and other complications of obstetric care in
hospital discharge data**

Romano PS, Yasmeen S, Schembri ME, Keyzer JM, Gilbert WM.

Obstetrics and Gynecology; 2005;106(4):717-25

A National Profile of Patient Safety in US Hospitals Based on Administrative Data

Romano PS, Geppert JJ, Davies SM, Miller MR, Elixhauser A, McDonald KM.

Health Affairs 22, no. 2: 154-166 (March/April 2003)

**Can administrative data be used to ascertain clinically significant postoperative
complications?**

Romano PS, Schembri ME, Rainwater JA.

American Journal of Medical Quality; 2002;17:145-54

Measures of Patient Safety Based on Hospital Administrative Data: The Patient Safety Indicators. Technical Review 5 (Prepared by the University of California San Francisco-Stanford Evidence-based Practice Center under Contract No. 290-97-0013) McDonald K, Romano P, Geppert J, et al.
AHRQ Publication No. 02-0038 . Rockville, MD: Agency for Healthcare Research and Quality. August 2002
